

PLANNING SHEET 3

SCOPING THE PROJECT

This planning sheet summarises the project for the Evaluator, so they can know:

- > the problems the project was set up to solve
- > what the project does to prevent or reduce crimes or problems
- > how the project expects its activities will have an effect.

Summarise:

- > the crimes or problems the project was set up to prevent or reduce
- > the people likely to commit these crimes, if known
- > the people affected by the crime or the problem
- > the crime rates, if known.

See steps 2–8 of Stage 3 for information on what should appear here.

The outcomes the project aims to achieve, including target figures, if relevant.
